# Mother Teresa.

Mother Teresa was born on 26 August 1910 in Albania . She became a nun at the age of 16. When she was 18 years old, she was sent to a convent in Kolkata (India). Her convent was near a slum colony called Moti Jheel. She noticed that the children of that area were poor, ill-fed and sick. She started going to that slum regularly giving food, medicines and care. Seeing the misery and poverty of this slum, she decided to start a separate institution of dedicated workers who would help her to serve humanity. She called this institution the 'Missionaries of charity'.
